Where do you begin with this. Audi S3 Quattro. Owned from new till 2020 by one owner who carried out all the modifications. Approximately 2750 miles per year, now at 55000 miles. Always garaged, never out in the rain, absolutely immaculate. I have receipts with the car totaling £65000 and I believe more has been spent. A few of the modifications are as follows. Lamborghini style doors, DMC front wings, 19" RS4 alloys. Full interior retrim including dash. Sportec stage 3 conversion with updated Sportec manifold and TTS 330 turbo. £5000 Porsche brakes, air suspension, Lumma carbon rear spoiler. Original bill of sale showing rare Imola yellow.
